2. GENERAL

2.1. Introduction

2.1.1. Purpose of the Examiner Differences Document

This document has been developed in accordance with the provisions contained in ARA.FCL.210². In accordance with FCL.1015(b)(4) and (c), this document contains the latest available information on the relevant national administrative procedures, requirements for protection of personal data, liability, accident insurance and fees for each EASA Member State (MS) for which the competent authority is not the same that issued the examiner's certificate.. It is intended for use by examiners with a Part-FCL examiner certificate conducting a test, check or assessment of competence on a Part-FCL licence holder whose licence was issued by a competent authority (CA) other than their own.

This document is *not* meant to be used by examiners with examiner certificates or authorisations issued by third countries other than the EASA MSs.

This section should be carefully studied. Section 3 contains the national administrative procedures applicable to each EASA MS. These should be reviewed and applied when conducting a skill test, proficiency check or assessment of competence on a respective MS licence holder. Furthermore, any additional MS-specific requirements in addition to those specified in this section, i.e. liability, accident insurance, and personal data protection related information, should also be reviewed and taken into account by the examiner as appropriate.

2.1.2. Skill test or Proficiency check form declaration requirement

In accordance with FCL.1030(b)(3)(iv), a MS skill test, proficiency check or assessment of competence form requires a declaration by the examiner that he/she has reviewed and applied the MS-specific administrative procedures in case the applicant's licencing authority is not the same as the one that issued the examiner's certificate.

The skill test, proficiency check or assessment of competence forms of a MS used by examiners who have been certified by another competent authority should contain the following declaration:

'I hereby declare that I, [*name examiner*], have reviewed and applied the relevant national procedures and requirements of the applicant's competent authority contained in version [*insert document version, i.e. 01-2014*] of the Examiner Differences Document. [*enter date & signature*]'

Please ensure that you enter the relevant details and sign the declaration accordingly each time you conduct a test, check or assessment of competence.'

2.1.3. Safety criteria in the territory of an EASA Member State

In accordance with ARA.FCL.210(c), MSs may require an examiner to observe certain safety criteria applicable to their territory when conducting a skill test or proficiency check on an aircraft. Section 3 of this document specifies whether such safety criteria will need to be observed and how to gain access to the relevant criteria. Section 4 of this document also contains a list of all MSs with instructions on how to obtain the applicable safety criteria.

² ARA.FCL.210 Information for examiners

(a) The competent authority shall notify the Agency of the national administrative procedures, requirements for protection of personal data, liability, accident insurance and fees applicable in its territory, which shall be used by examiners when conducting skill tests, proficiency checks or assessments of competence of an applicant for which the competent authority is not the same that issued the examiner's certificate.

2.2. Liability and accident insurance

In general, the CA of an EASA MS does not provide liability or accident insurance during the conduct of skill tests, proficiency checks or assessment of competence. It is therefore the responsibility of the examiner to ensure that he/she is adequately insured against incident, accident or liability issues.

Furthermore, the examiner is fully responsible for the safety during the skill test, proficiency check or assessment of competence, either in an flight simulation training device (FSTD) or when acting as pilot-in-command (PIC) in an aircraft. There are two principal types of risk against which an examiner should consider insuring himself/herself. First, the direct involvement during flying tests might lead to an accident and a claim for damages for loss or injury ensuing as a result of the accident. Secondly, professional indemnity, for example a claim made against the examiner by an applicant for an inadequate examination, or breach of contract. Examiners are advised to seek professional advice concerning appropriate insurance covering their activities as certified examiners.

An aircraft operator must have third-party liability insurance, as required by Regulation (EC) No 785/2004³ on insurance requirements for air carriers and aircraft operators. Such insurance *may* cover an examiner for personal liability in case of accident; however, an examiner should always verify this carefully with the operator if he/she intends to rely on this insurance.

Note: This general statement on liability and accident insurance has been agreed upon by the MSs and is based on the input received from the MSs. Any relevant differences to this general statement in a particular MS will be specified in section 3 of this document as applicable to the CA in the respective MS.

2.3. Personal data protection

General Data Protection Regulation ('GDPR')⁴

As of 25 May 2018 the Regulation (EU) 2016/6791, the European Union's ('EU') new General Data Protection Regulation ('GDPR') which regulates the processing by an individual, a company or an organisation of personal data relating to individuals in the EU, becomes applicable.

This means that the persons or legal entities using the Examiner Differences Document shall comply with the new GDPR.

The GDPR aims to protect the rights and freedoms of persons with respect to the processing of personal data by laying down guidelines determining when this processing is lawful.

In general, skill test, proficiency check and assessment of competence forms and any other personal information may only be passed to the examiner's CA, the applicant's CA as required, to the applicant and, if applicable, to the applicant's organisation with his/her prior consent.

No information shall be passed to others.

Note: This general statement on personal data protection has been agreed upon by the MSs and based on the input received from the MSs. Any relevant differences to this general statement in a particular MS will be specified in Section 3 of this document as applicable to the CA in the respective MS.

³ Regulation (EC) No 785/2004 of the European Parliament and of the Council of 21 April 2004 on insurance requirements for air carriers and aircraft operators (OJ L 138, 30.4.2004, p. 1).

2.4. National administrative procedures

Section 3 of this document contains the specific administrative procedures provided by the CA of each EASA MS.

Please review the respective procedures and requirements carefully as non-compliance *may* lead to application processing delays and possibly render a completed skill test, proficiency check or assessment of competence invalid.

4.2 Licence endorsement procedures

The examiner may endorse the licence if the rating which is renewed or revalidated is still printed on the licence, even if it has been expired for more than three years. The authorisation required by ARA.FCL.200(c) before endorsing a pilot licence for revalidating or renewing is hereby given.

In all other cases the BCAA shall issue a new licence with a valid rating.

The examiner is not allowed to enter any new rating in the licence after a passed skill test.

The examiner is not allowed to enter any examiner – or instructor certificate in the licence after a successful assessment of competence.

Examiners shall comply with the procedures specified in the different [Information Notices](#) published on the BCAA website. The information notices relevant for examiners are indicated on the website.

4.3 Designation procedures

4.3.1. Designation of examiners:

The designation of examiners procedure applies only for the **CPL skill tests** and the assessment of competence for the issue and renewal of an examiner certificate.

The **CPL skill test** can only be performed by an examiner accepted by the BCAA. Therefore, the form "Application form for designation of examiner" must be submitted by the candidate; this can be found [here](#).^[1]

The **assessment of competence** for the issue or renewal of an examiner certificate can only be performed by a senior examiner with a certificate issued by the BCAA or an inspector from the BCAA. For renewal and issue of an examiner certificate the examiner must be designated by the BCAA. In case of revalidation of an examiner certificate the candidate is free to choose the senior examiner.

4.3.2. Notification of test (skill test, proficiency check and assessment of competence)

As a general rule , each examiner holding an EU examiner certificate taking a test for a Belgian pilot licence holder, shall notify the BCAA **24 hours prior to every** skill test, proficiency check and assessment of competence by registering the skill test, proficiency check and assessment of competence.

The registration tool is a web application that can be reached via the following link: [test](#)

BELGIUM

[registration tool.](#)

In case of a partial pass or failure, the examiner has to fill in a new request again **24 hours** in advance.

Except for the tests mentioned in 4.3.1, a change of examiner **up to 4 hours before the event** is allowed and has to be notified by the initially assigned examiner. This can be done by sending a reply to the confirmation mail the examiner received. It is important to keep the reference number in the subject of the mail and to indicate the new examiner name.

A change of date due to an unforeseen circumstance has to be notified within 24 hours by a reply to the notification system, using the same reference number.

Each examiner holding a **Belgian examiner certificate** taking a test for a **non-Belgian pilot licence holder**, shall upload the content of the examiner report as specified in 2.4.2 via the [following tool](#).

4.3.3. Vested interests

According FCL.1005 examiners shall not conduct skill tests or assessments of competence of applicants for the issue of a licence, rating or certificate when they have been responsible for the recommendation for the skill test, in accordance with FCL.030 (b);

Postholders (Accountable manager, Head of Training, Chief Flight Instructor and Chief Theoretical Knowledge Instructor) and representatives of a specific training organisation (ATO or DTO) are therefore not allowed to take skill tests or assessments of competence from candidates who received training in their own training organisation.

4.4 Skill test, proficiency check or assessment of competence forms

Items to considerations when taking a proficiency check or skill test:

- In order to fly solely by reference to instruments in simulated IMC conditions, the BCAA requires the use of a hood or a goggle. Furthermore the aircraft must be equipped with an artificial horizon (ADI).

Examiners are reminded that they are only allowed to use the application forms, test contents and reports that has been developed by the BCAA. All forms can be found via the following link: [Application forms, reports and test schedules](#).

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information listed in [general section 2.4.2](#) on/with those forms.

All documents must be send to the BCAA in paper format. The address can be found in chapter 4.8

Each examiner holding a **Belgian examiner certificate** taking a test for a **non-Belgian pilot licence holder**, shall upload the content of the examiner report as specified in 2.4.2 via the [following tool](#).

The table below gives an overview of the documents that have to be send or handed over to the BCAA and the candidate after a skill test or a proficiency check. Please check also the general chapter 2.4

4.2 Licence endorsement procedures
 After successful completion of a licence proficiency check the examiner may endorse the new validity date in the license. The authorisation required by ARA.FCL.200(c) before endorsing a pilot licence for revalidating or renewing is hereby given.

4.3 Designation procedures

In accordance with the requirements in ARA.FCL.205(c), before any **skill test** and **assessment of competence** is conducted an examiner shall send the following information, listed in general section 2.4.1, to the BGCAA on the following email address: ebf@caa.bg with as subject "**designation of examiner**".

The application forms can be obtained here.

4.3.1 Pilot licences – Skill test

Applicants for any licence skill test shall apply to the Bulgarian CAA for designation of the examiner. The applicant (except of the candidate for ATPL) must be recommended by the ATO, which is responsible for its training. Applicant shall submit an application to BG CAA in which there is a recommendation for the applicant by the ATO made his training. In addition, examiners are required to send a notification for **every** skill test they intend to conduct **at least 5 days** prior to the test with option to change the examiner up to **1 hour** before. The BGCAA will provide the applicant and the examiner with a written authorisation for conducting the skill test. An examiner may not conduct a skill test unless he/she has been authorized to do so in writing (by e-mail) by the BGCAA.

In any case, BGCAA will notify the ATO that recommends the applicant, the designated examiner and the candidate himself.

The ATO must submit documentation of the applicant's training set by the CAA examiner before the skill test. An applicant for a skill test for the ATPL must submit all documents to the examiner.

PPL, LAPL, SPL, BPL, CPL and IR skill test - The BGCAA normally designates examiners who are BGCAA examiners or Part-FCL examiners registered with the BGCAA, or examiners employed by an ATO certified by BGCAA to conduct PPL, CPL and IR skill tests.

ATPL skill test – The BG CAA normally designates examiners who are BGCAA examiners or examiners certified by BGCAA, or examiners employed by an operator certified by the BG CAA to conduct the ATPL skill tests. In the case of pilots not employed by an operator certified by BGCAA, the applicant is required to nominate two examiners (or at least one) in the skill test application form, if not BGCAA certified examiners are to conduct the test.

4.3.2 Pilot licences - Proficiency check

Examiners are not required to send a notification for every proficiency check they have to conduct.

4.3.3 Instructor certificates

Applicants for an assessment of competence shall apply to the BGCAA for designation of the examiner. Applicant shall submit an application to BG CAA.

The BGCAA will provide the applicant and the examiner with a written authorisation for conducting the skill test. An examiner may not conduct a skill test unless he/she has been authorized to do so in writing (by e-mail) by the BGCAA.

An applicant for an assessment of competence must submit all documents to the examiner.

In any case, BGCAA will notify the applicant and the designated examiner.

Examiners are required to send a notification at least **5 days** before every initial assessment of competence they intend to conduct. An examiner may not conduct an initial assessment of competence unless he/she has received acknowledgement in writing (by e-mail) by the BGCAA.

4.3.4 Examiner certificates

The forms can be obtained <https://www.caa.bg/bg/category/311/formi-za-lpc-skill-test-aoc-i-prakticheski-proverki>

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information listed in general section 2.4.2.

In addition, the examiner shall send the following information:

- 1.Examiner's check return form <https://www.caa.bg/en/category/586>.
- 2.Licensing fee by the applicant

The assessment of competence for the issue, revalidation or renewal of an examiner certificate **can only** be conducted by a BG CAA inspector or by a senior examiner.

4.4 Skill test, proficiency check or assessment of competence forms

The forms can be obtained here.

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information listed in general section 2.4.2.

In addition, the examiner shall send the following information:

- 1.Examiner's check return form <https://www.caa.bg/en/category/586>.
- 2.Licensing fee by the applicant

The examiners shall send to BGCAA (address available in the briefing) all above documents within **14 days** after the skill test, proficiency or assessment of competence check either by post or courier, or by the candidate. Scanned copies may be sent to ebf@caa.bg immediately after the check in case of urgency. In addition, the BGCAA requires a report from the examiner detailing the reasons for any failure, partial pass or any special circumstance (if applicable).

4.5 Safety criteria

Safety criteria in accordance with ARA.FCL.210(c) are not applicable in Bulgaria.

Note: References to access to the safety criteria to be observed in the territory of other MSs, if applicable, are contained in Section 4 of this document.

4.6 Examination fees

The BGCAA does not provide financial remuneration for expenses or services rendered. The examiner shall arrange those with the ATO or the candidate.

Currently there is no fee to be paid for foreign examiners, however the process of revision of the examination fees regulation applicable to pilot licenses is in progress. It is expected that there will be an examination fee.

4.2 License Endorsement Procedures

- The Examiner may only enter the revalidated or renewed rating in the pilot's license provided that the candidate's rating has not expired or has expired for less than 3 years and rating is included in the licence. The authorisation required by ARA.FCL.200(c) before endorsing a pilot license for revalidating or renewing is hereby given.
- If the rating is not included in the license a new license with the renewed rating shall be issued by the Cyprus Department of Civil Aviation.
- The Examiner is not allowed to enter any new rating in the license after a passed skill test or Assessment of Competence.
- In case of lapsed ratings the examiner must verify compliance with FCL.625/FCL.740 as applicable. In this case a document from an ATO must be submitted along with other required test/check documents.

4.3 Designation / Notification Procedures

4.3.1 Designation Procedure

In accordance with the requirements in ARA.FCL.205(c), before any skill test or assessment of competence for initial issue of instructor certificate is conducted an examiner shall send the following information listed, in **General section 2.4.1** to eld@dca.mcw.gov.cy

The required skill test notification period is **5 days** prior to the test. A change of examiner up to **3 days** before the event is allowed. Shorter notice period may be accepted on a case-by-case basis.

4.3.2 Notification Procedure

Before any proficiency check (revalidation or renewal) and assessment of competence (revalidation or renewal of instructor certificate) is conducted an examiner shall send the following information listed, in **General section 2.4.1** to eld@dca.mcw.gov.cy.

Formal notification period: maximum **3 days** before the event (change of examiner is allowed **1 hour** before the event).

4.4 Skill test, proficiency check or assessment of competence forms

The forms can be obtained [here](#).

Note: if competency in performance-based navigation (PBN) is checked, the examiner shall use the appropriate PBN forms.

Initial and revalidation of PBN endorsement to the IR privileges will be entered by the examiner in the pilot's license, such as A320 / IR / PBN or IR-SPA-ME-PBN, signature and authorisation number of examiner certificate (if applicable).

Revalidation of PBN conducted during a proficiency check does not need to be endorsed (examiner signature) in the logbook, unless other types of PBN approaches are assessed.

Examiners shall only conduct IR skill tests/ proficiency checks including PBN privileges, if they hold PBN privileges themselves. Examiners shall provide confirmation that they hold PBN privileges (examiner's license, logbook or equivalent record).

In the case that a FSTD is to be used for the above test, Examiners should ensure that the device is qualified for the above training and test. This should be indicated on the submitted FSTD's Qualification Certificate.

The completed forms shall be sent to the Cyprus Department of Civil Aviation. The preferred method is to send the form as a scanned pdf attachment to an E-mail using eld@dca.mcw.gov.cy.

<p>Alternatively the form may be send via postal service. See contact Information for address. After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information listed in <u>General section 2.4.2.</u></p>

3.9. FINLAND

Finnish Transport Safety Agency (Trafi)

1. Liability

General statement Section 2.2 applies. In addition, when flying a Finnish aircraft, any liability for loss or damage in an accident is partly determined on the basis of the flight examiner status. The examiner usually acts as PIC, but when revalidating a rating on a proficiency check, the examinee may act as PIC if he/she holds the required ratings. The command responsibility must be determined at the latest during flight preparation and stated in the flight plan. Responsibility for operational safety during the flight rests with the PIC.

Examiners shall make sure that they have the right to act as PIC for the flight in question. In accordance with the Finnish Aviation act, the owner, possessor or operator of the aircraft decides on the pilot-in-command and safe manning.

When flying in Finland using Finnish aircraft, any liability for damages is determined in accordance with Section 142 of the Finnish Aviation Act (1194/2009). Usually the aircraft owner, possessor and operator are jointly and severally liable for any damage caused. The provisions of the Tort Liability Act (412/1974) are applied to the division of liability between employer and employee, determination of the value of damage, and to any adjustment of compensation.

When the examiner conducts a skill test, proficiency check or assessment of competence on which he/she has personally agreed with the examinee or his/her instructor, the examiner has either the status of a hired employee or an independent contractor, depending on the type of employment or contract relationship, as regards the liability for damages. An examiner who conducts a skill test/proficiency check at the request of an authority who nominates him/her for the task – with the examiner's consent - is also regarded as a contractor.

FINLAND

2. Accident insurance

General statement Section 2.2 applies. In addition, national provisions on the minimum insurance cover for aircraft crew (instructor and student pilot) are contained in Section 145 of the Finnish Aviation Act (1194/2009), but only for initial flight training ("seat insurance").

Based on his/her employment relationship, the examiner may be covered by the employer's insurance against accidents at work. Examiners who do not work for an employer are regarded as contractors and must look after their insurance cover themselves.

It is not mandatory to insure the aircraft against loss or damage. Anyone using the aircraft may check its insurance details. If the aircraft has no insurance, the examiner may take a liability insurance against loss or damage of the aircraft.

For some aircraft, the insurance terms may contain additional requirements concerning e.g. the PIC's licences, ratings, total flying experience or experience on that aircraft type or variant.

The aircraft operator (examiner/applicant) shall make sure that the third-part liability insurance is valid on every flight.

When using an aircraft registered in another country, it is important to ensure an adequate insurance cover both for the examiner and the applicant on each flight separately.

3. Data protection

General statement Section 2.3 applies. In addition, the Act on the Openness of Government Activities (621/1999) specifies that the applicant's identity number or secret telephone number shall not be made public or used in any official documents. Information on the applicant's domicile, place of residence, temporary place of residence, telephone number (even if not secret) and other contact details shall also be kept secret on request.

The applicant's identity shall be reliably identified.

The skill test / proficiency check report becomes public when it is completed and signed, regardless of any verbal assessments or reasons for failing explained. The completed report shall be distributed to:

- the examinee (original)
- examinee's licensing authority (copy)
- examiner's licensing authority (copy)
- the examiner (copy must be retained for 5 years)
- the instructor as feedback if a new licence or rating is issued (Ref. AMC2 FCL.1015 Examiner standardisation, purpose of a test or check, paragraph d) (copy)

The safety criteria to be observed by the examiner, in accordance with ARA.FCL.210(c), are not applicable in Finland.

References to access to the safety criteria to be observed in the territory of other MSs, if applicable, are contained in Section 4 of this document.

4.6 Examination fees

Trafi does not provide financial remuneration for expenses or services rendered. The examiner shall arrange those with the training organisation or the candidate. A fee of 50 euro will be charged by Trafi for the designation of an examiner for a skill test or an assessment of competence. This fee will be charged from the candidate requesting the examiner designation, unless otherwise specified on the designation request.

4.2 Licence endorsement procedures

- Licence endorsement **NOT** permitted – Non-French examiners are not allowed to make any entry or a signature in a licence issued by France.
- Skill tests/proficiency checks must be recorded on the appropriate DGAC form downloadable from DGAC website (see the links in section 4.4 below).

4.3 Designation procedures

First, whether the examiner is conducting a test in a French approved ATO or not, THE EXAMINER MUST BE REGISTERED on the non-french examiners list before any skill test, initial assessment of competence or privilege extension assessment of competence. To do so, please visit our dedicated webpage : [Non-French Examiners website](#).

The registration process can take up to 1 month after the application has been sent.

In accordance with the requirements in ARA.FCL.205(c), before any **skill test** is conducted an examiner shall send the relevant information listed in [general section 2.4.1](#), to dsac-test-notification-bf@aviation-civile.gouv.fr.

4.3.1 This procedure concerns CPL, IR, ATPL skill tests, initial instructor assessment of competence and assessment of competence for the extension of instructor privileges conducted out of a French-approved ATO.

The examiner sends a notification e-mail for the planned skill test **at least 15 calendar days** before the event. Only non-French examiners who are registered (certification valid at the date of the test) on the French list of examiners can be proposed.

As long as the examiner receives the automated acknowledgement of his/her notification email, this fulfills the notification requirement. Unless he/she receives an additional e-mail from DGAC (no later than 5 days before the planned skill test) including constraints/orders, the examiner can conduct the skill test at the date stated in the initial notification e-mail.

Process: e-mails must be sent to dsac-test-notification-bf@aviation-civile.gouv.fr

N.B.1 Information for CPL/IR skill tests :

Flight tests for **CPL and IR skill tests** must be conducted **separately, by two different examiners**.

N.B.2 Information about candidates registration for ATPL, CPL and IR skill tests :

Before any ATPL, CPL, and IR skill test is conducted, the candidate must be registered for the skill test and must have received her/his letter of acceptance to take the test sent by the relevant administrators of the examinations office.

This candidate registration procedure is independent from the DGAC requirements for the examiner.

Candidates for ATPL, CPL, and IR skill tests must complete the DGAC registration procedure for ATPL, CPL, or IR skill test before the examiner notifies the skill test.

Once the candidate is registered for the skill test and has received his/her letter of acceptance from the DGAC examinations office, the skill test can be conducted (provided the examiner is registered on the non-french examiners list, has notified the skill test and is allowed to conduct the skill test after the notification). **Otherwise, the skill test can not be conducted.**

 Registration forms for ATPL, CPL, IR candidates on helicopters: [here](#)

4.3.2 For all other skill tests for the issuance of a licence (LAPL, PPL, ...) and Class Rating/TypeRating skill tests conducted out of a French-approved ATO.

Non-French examiners must inform DGAC of their intention to conduct the test **at least 5 working days** before the event by sending the corresponding notification e-mail. Only non-French examiners who are registered (certification valid at the date of the skill test) on the French list of examiners can be proposed. As long as the examiner receives the automated acknowledgement of his/her notification e-mail, this fulfills the notification requirement. Unless he/she receives an additional e-mail from DGAC (no later than 24 hours after the notification) including additional constraints/orders, the examiner can conduct the skill test at the date stated in the initial notification e-mail.

Process: e-mails must be sent to dsac-test-notification-bf@aviation-civile.gouv.fr

N.B.1 Information about candidates registration for PPL and LAPL skill tests :

Before any PPL and LAPL skill test is conducted, the candidate must be registered for the skill test and must have received her/his letter of acceptance to take the skill test sent by the relevant administrators of the licensing office.

This candidate registration procedure is independent from the DGAC requirements for the examiner.

Candidates for PPL and LAPL skill tests must complete the DGAC registration procedure for PPL or LAPL skill test before the examiner notifies the skill test.

Once the candidate is registered for the skill test and has received from the DGAC licencing office his/her letter of acceptance to take the skill test, the skill test can be conducted (provided the examiner is registered on the non-french examiners list, has notified the skill test and is allowed to conduct the skill test after the notification). **Otherwise, the skill test can not be conducted.**

[Registration form for LAPL, PPL candidates on aeroplanes/helicopters : here](#)

N.B.2 For LPCs, revalidation/renewal of instructor certificate;

The examiner do not need to be registered on the non-french examiners list.

Test notification is not requested anymore for licence proficiency check. Please review our national administrative procedures, requirements for protection of personal data, liability, accident insurance and fees available in the document *Procedures for examiners* located [here](#).

N.B.3 Information for flight examiners for sailplanes who intend to conduct a BPP skill test:

BPP (in French : "Brevet de pilote planeur") : french national licence for sailplanes.

Any flight examiner for sailplanes who plans to perform a BPP skill test is kindly invited to read the document *Procedures for examiners* located [here](#)

4.4 Skill test, proficiency check or assessment of competence forms

The skill test, proficiency check or Assessment of competence **forms** can be obtained for aeroplanes [here](#), helicopters [here and sailplanes here](#).

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information listed in general section 2.4.2.

Process: e-mails must be sent to dsac-test-notification-bf@aviation-civile.gouv.fr

The examiner must give a copy of his licence, copy of his examiner's certificate and the original skill test form to the candidate who will subsequently give them to his **licensing office** to have his licence updated.

Concerning LAPL, PPL skill tests, in addition to the forwarded copy of the report sent by the examiner at dsac-test-notification-bf@aviation-civile.gouv.fr, it is the candidate's responsibility to send the original skill test/proficiency check record form, a copy of the examiner's licence and a copy of the examiner's certificate to his **licensing office** to have his licence issued.

Concerning ATPL, CPL and IR skill-tests, in addition to the forwarded copy of the report sent by the examiner at dsac-test-notification-bf@aviation-civile.gouv.fr, it is the candidate's responsibility to send the original skill test/proficiency check record form, a copy of the examiner's licence and a copy of the examiner's certificate to the relevant administrators in the **examination office**.

4.5 Safety criteria

At this stage, the DGAC has not issued specific safety criteria in English.

Note: References to access to the safety criteria to be observed in the territory of other MSs, if applicable, are contained in Section 4 of this document.

4.6 Examination fees

The DGAC does not provide financial remuneration for expenses or services rendered. The examiner shall arrange those with the training organisation or the candidate.

1.Liability

[General statement Section 2.2](#) applies.

2.Accident insurance

[General statement Section 2.2](#) applies.

3.Data protection

[General statement Section 2.3](#) applies. In addition, year 2011 [CXII Hungarian Federal Data Protection Act](#) must be obeyed as follows;

Relevant except of the relevant CXII Hungarian Federal Data Protection Act "2011. évi CXII., az információs önrendelkezési jogról és az információszabadságról törvény"

1. The object of the Act is to define the fundamental rules applied in connection with controlling data with the aim of ensuring that the controllers respect the private sphere of natural persons. So personal data, i.e. data relating to the data subject as well as conclusions drawn from the data in regard to the data subject may be controlled if
 - a) the data subject agrees to it (except if it is not possible to obtain the consent of the data subject or even if the cost of doing so is excessively high and the personal data must be controlled to fulfill legal obligations applicable to the controller, or to enforce the rightful interests of the controller or third parties and the enforcement of such interests is proportionate to the restrictions pertaining to the right to the protection of personal data), or
 - b) it is provided for by law or by or pursuant to a local government decree for a purpose based on public interest (hereinafter mandatory data control).
2. Personal data may exclusively be controlled for a specific purpose to the extent and for the time required to achieve the goal. Data must be recorded and controlled in a fair and legal manner. It has to be ensured during the course of control that the data are accurate, complete and updated, and that the data subject is only identifiable for the time required for the data control. Through the institution of the appropriate measures the data must be particularly protected from unauthorised access, modification, transfer, disclosure, deletion or destruction, accidental destruction and damage as well as disabled access occurring due to changes to the technology applied.
3. Prior to control being initiated the data subject must be explicitly informed in detail of every fact relating to the control of their data, and therefore in particular, of the objective of the control and its legal grounds, the individual authorised to control and process the data, the duration of the control process, as well as of who is authorised to acquire knowledge of this data. This information must equally detail the rights and legal redress opportunities the data subject has in connection with control. Furthermore the data subject may request from the controller information on the control of personal data, correction of personal data, and deletion, blocking of personal data, with the exception of mandatory control.
4. The controller shall correct the personal data should the personal data not be authentic and the controller has access to the authentic personal data.

Personal data must be deleted should

- a. its control be illegal;
- b. it have been requested by the data subject in accordance with point c) of Section

HUNGARY

- 14;
- c. it be incomplete or incorrect – and this cannot be legitimately changed – on condition that the law does not rule out deletion;
 - d. the objective of the control have ceased to exist or the period defined in the relevant legislation for storing the data have expired;
 - e. it have been ordered by the court or the Authority.
5. Instead of deletion, the controller blocks the personal data should the data subject request this, or in the event that the basis of the information available, deletion would presumably violate the rightful interests of the data subject. Personal data blocked through such means may exclusively be controlled while the control objective remains valid which barred the deletion of the personal data.
 6. The data subject, as well as everyone to whom the data was transferred for control purposes, must be notified of any correction, blocking and deletion. Exemptions apply should this not violate the rightful interest of the data subject in respect of the objective of control.
 7. The controller shall be obliged to compensate for damages caused to others as an outcome of the illegitimate control of the data of the data subject or a breach of data security requirements. The controller shall be exempt from liability should they be able to prove that the damages were caused by circumstances beyond their immediate control. Damages do not need to be compensated should they have ensued from the deliberate or serious negligence of the aggrieved party.

4.2 Licence endorsement procedures
 Examiners are allowed to endorse revalidated or renewed ratings or instructor certificates in a pilot licence, provided that the rating is published on the front side of the licence. The authorisation required by ARA.FCL.200(c) before endorsing a pilot licence for revalidating or renewing is hereby given.

In all other cases, the KIWA register will issue a new license after the correct forms are received from the examiner and the candidate. Further information is found [here](#).

The examiner shall check the Briefing EU examiners (non-Dutch) before all upcoming skill tests, proficiency checks or instructor assessment of competenc's of Dutch license-holders for the latest information.

After 25 August 2020 PBN privileges shall be required for every IR. Therefore an IR or EIR without PBN privileges shall not be extended passed 25 August 2020. All IR or EIR valid after this date shall contain PBN privileges and have been issued or extended accordingly.

4.3 Designation and monitoring

4.3.1 Designation of examiners

Procedures for designation of examiners are published in chapter 5 of the "Briefing EU Examiners (non-Dutch)", as published [here](#).

4.3.2 Notifications

IMPORTANT: To allow CAA-NL to perform the required oversight the examiner shall notify CAA-NL in advance of:

- All skill tests for the initial issue of a license or rating
- All assessments of competence for the initial issue of an instructor certificate
- All skill test, proficiency checks or instructor assessment of competence's taking place in The Netherlands
- All upcoming skill tests, proficiency checks or instructor assessment of competence's of Dutch license-holders when so requested by CAA-NL.

For this notification the form "Notification Test, check or assessment of competence" can be used. The form can be found [here](#).

If this is not possible, send an e-mail with at least the information listed in general section 2.4.1 to notification@ilent.nl.

The notification requirement is fulfilled when the examiner receives the automatic reply to his notification.

The examiner can then proceed with conducting the skill test, proficiency check or assessment of competence on the indicated date, time and place unless CAA-NL contacts the examiner with a restriction or a constraint.

In general, the examiner shall notify the CAA-NL not less than **7 days** prior to the event. If there is any change in any of the details a new notification has to be submitted.

CAA-NL reserves the right to be present at the skill test or proficiency check or to replace the examiner.

4.4 Skill test, proficiency check or assessment of competence forms

All forms can be obtained [here](#)

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include:

- A copy of the skill test and proficiency check report form
- A copy of the applicable flight test schedule, or
- A copy of the 'Instructor Assessment of Competence Report Form'.
- A copy of the statement of the ATO which confirms the required training has been completed (if applicable).

- A copy of the FSTD approval certificate (if applicable)
- A copy of the examiner's license (both sides if relevant).
- A copy of the examiner's certificate (both sides if relevant).
- A copy of the examiners medical certificate (if relevant)
- A copy of the endorsed licence (both sides if relevant)

The candidate shall submit the form 'Aanvraag bewijs van bevoegdheid vliegtuigen (A) of helicopters (H)' and the documents indicated in item 10 of the Dutch version of that form.

This form is published on the website of KIWA register at the bottom of this [page](#).

The report of the examiner, and the request of the candidate shall both be sent by mail to:

Or electronically by a scan of good quality to NL.Luchtvaart@kiwa.nl

4.5 Safety criteria

The examiner is fully responsible for the safety during the skill test or proficiency check, in the simulator or when acting as PIC in an aircraft.

Note: References to access to the safety criteria to be observed in the territory of other MSs, if applicable, are contained in Section 4 of this document.

4.6 Examination fees

The CAA-NL does not provide financial remuneration for expenses or services rendered. The examiner shall arrange those with the training organisation or the candidate.

4.7 Examiner support information

All information can be found [here](#).

The CAA-NL will sample skill test, proficiency checks or assessments of competence according to a published national oversight program (ARA.FCL.205(a)).

If the examiner suspects that a pilot does not comply with the requirements of Part-FCL, Part-MED or any other applicable operational requirements, the examiner shall immediately contact the CAA-NL.

As a part of the monitoring program for examiners as mentioned in ARA.FCL.205 any proficiency check or skill test performed on a Dutch licence holder may be subject to supervision. If the supervision is unsatisfactory the authority that issued your examiner's certificate will be notified.

4.2 Licence endorsement procedures

- *Assessment of competence for examiner certificate shall be conducted by a Norwegian senior examiner or inspector, unless specifically approved otherwise.
- The examiner may endorse the licence if the rating which is renewed or revalidated is still printed in the licence, even if it has been invalid for more than three years. The authorisation required by ARA.FCL.200(c) before endorsing a pilot licence for revalidating or renewing is hereby given.
- In all other cases the NCAA shall issue a new licence with a valid rating.
- The examiner is not allowed to enter any new rating in the licence after a passed skill test.
- The examiner is allowed to issue a temporary rating

4.3 Designation procedures

In accordance with the requirements in ARA.FCL.205(c), before any **skill test** is conducted an examiner shall send the following information listed in general section 2.4.1 to st@caa.no

The procedure above also applies for initial **assessment of competence** for instructor certificate.

Assessment of competence for examiner certificate shall be conducted by a Norwegian senior examiner or inspector, unless specifically approved otherwise.

4.3.1 IR, class - and typeratings.

Non-Norwegian examiners may conduct a skill test for **IR, class and type rating** and assessment of competence for instructor certificates once they have read the examiner briefing in this procedure, and sent a notification for the skill test to the NCAA at st@caa.no. The notification should be sent at least **5 working days prior** to the skill test or assessment of competence for instructor certificate. Upon receiving an autoreply, the examiner is designated by the NCAA for the skill for a class or type rating. This procedure does not apply for a skill test for licence issue. For CB-IR from third country, pre-approval is required.

4.3.2 Licence issue

Non-Norwegian examiners shall not conduct a skill test for **a licence issue (including ATPL)** until they have received an e-mail from the NCAA confirming that they have been designated as the examiner for the skill test. The notification for the skill test for licence issue shall be sent at least **15 working days** prior to the skill test. This notification shall also be sent to: st@caa.no

4.3.3 Special approval (for ATO's)

Non-Norwegian examiners conducting skill tests under the management system of an ATO may apply through the ATO's management system for a pre-designation of a pool of examiners to use for skill tests. For such an approval, the ATO must update its management system with the necessary administrative procedures as required and acceptable to the CAA-Norway.

4.4 Skill test, proficiency check or assessment of competence forms

The forms can be obtained by clicking this link [here](#).

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information listed in general section 2.4.2. The completed licencing skill test form shall be sent to the NCAA. The preferred method is to send the form and attachments by e-mail to postmottak@caa.no and please send only one e-mail for each candidate. Forms and attachments sent by e-mail shall be in pdf-format.

Alternatively, the form may be sent via postal service. See contact Information for address.

4.5 Safety criteria

The safety criteria to be observed by the examiner, in accordance with ARA.FCL.210(c), are not applicable in Norway.

In general, the examiner shall notify the AESA **5 days** prior to the skill test, proficiency check or assessment of competence. A change of examiner up to **1 hour** before the event is allowed.

4.4 Skill test, proficiency check or assessment of competence forms

Procedures for skill test, proficiency check or assessment of competence including both forms and cover letter of AESA are available in the following link:

http://www.seguridadaerea.gob.es/lang_castellano/prof_sector/pilotos/procedure_form_pruebas/default.aspx

After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the following information listed in general section 2.4.2

(including, if conducting PBN checks, skill test or proficiency check report form, a copy of examiner's logbook or equivalent record as confirmation that examiner holds PBN privileges and a copy of FSTD approval certificate with PBN-approaches qualification)

The examiner must hand a copy of his licence, copy of his examiner's certificate and copy of his medical certificate (if applicable) and original of skill test, proficiency check or assessment of competence form to the applicant or to organisation (Operator/ATO) who will subsequently deliver, by post or in person to AESA, these documents to his/her licensing office to have her/his licence updated.

Implementation of PBN in Spain:

Examiners shall only conduct IR skill tests/proficiency checks including PBN-procedures, if they hold PBN privileges themselves. Examiners shall provide confirmation that they hold PBN privileges (examiner's logbook or equivalent record).

Examiners will need to collect evidence that the theoretical and practical requirements have been fulfilled. Such evidence is detailed in the information available on: http://www.seguridadaerea.gob.es/media/4629058/guia_atribuciones_pbn.pdf

The required evidence will be collected by the examiner at the time of the skill test or proficiency check under IR covering PBN approaches.

Alternatively if evidences are not enough to credit the theoretical and practical requirements the candidate cannot proceed for the IR PBN skill test or proficiency check and can only proceed for a normal IR proficiency check (without IR PBN)

PBN endorsement:

PBN endorsement to the IR privileges will be signed by the examiner in the pilot's logbook or equivalent record entering PBN APPROVED when the three RNP APCH, theoretical and practical training, was completed at an ATO or entering PBN followed by LNAV, LANV-VNAV or LPV according to the operator training recognized by AESA personnel licensing division.

The annual endorsement "PBN-approved" in the logbook is not required, unless other types of PBN approaches are assessed.

4.5 Safety criteria

In accordance with ARA.FCL.210(c), the safety criteria to be observed by the examiner can be found:

1. When exercising your examiner privileges on Spanish licences you are responsible for the compliance with the Spanish aviation safety law specified here.
2. As a pilot in command during the flight test is the ultimately responsible for the safety and you must ensure that the aircraft used in the test has all the regulatory insurance and when operating in Spanish aircraft or Spanish airspace, is applicable the Air Navigation Act

and the Air Traffic Regulations specified [here](#).

Note: References to access to the safety criteria to be observed in the territory of other MSs, if applicable, are contained in Section 4 of this document.

SWEDEN

- The Swedish Transport Agency has established procedures for the issue of a temporary permission to exercise privileges after a successful test, when licence endorsement is not permitted, in accordance with ARA.FCL.215 (d). The form can be found [here](#). **The examiner shall issue a temporary permission to exercise privileges when licence endorsement is not permitted (not applicable to certificates and licences such as ATPL, Examiner, PPL etc.).** More information regarding the procedure can be found under the header "Endorsement in the licence / temporary privileges" [here](#). The temporary privileges can only be issued by the examiner who conducted the test and only in accordance with the described procedure.

4.3 Notification Procedures

In accordance with the requirements in ARA.FCL.205(c), before conducting any **skill test or initial instructor assessment of competence** the examiner shall enter the information listed in [general section 2.4.1](#) into the form on the Swedish Transport Agency website; Briefing for non-swedish examiners, which can be found following the link below.

<https://www.transportstyrelsen.se/en/aviation/Flight-Training-and-Licensing/Briefing-on-Non-Swedish-Examiners/>

The required skill test notification period is **5 days** prior to the test, with the possibility to allow a change of the examiner up to **1 hour** before the event.

Please note that the auto generated answer to the notification is to be considered a designation for the skilltest or assessment of competence as per ARA.FCL.205(c). If any changes to the notification are made, e.g. due to weather or technical reasons, a new notification has to be submitted. Please note that the notification period of 5 days does not apply to changes to an already submitted notification. If the Swedish Transport Agency wishes to assign another examiner or inspector the examiner will be notified.

4.3.1 ATPL skilltest

As per 4.3

4.3.2 Proficiency checks

No notification for proficiency checks are required.

4.3.3 Initial examiner Assessments of Competence (AoC), **designation procedure apply**

An initial AoC for Examiner Certificate is to be conducted by a Swedish inspector or senior examiner unless specifically approved otherwise. An examiner for an initial examiner AoC shall be specifically **designated** by the Swedish Transport Agency. Requests regarding an initial examiner AoC must be sent to notification@transportstyrelsen.se and contain the information listed in [general section 2.4.1](#). Please write "Examiner AOC" in the email subject line. The AoC notification period is minimum **20 work days** prior to the AoC. The applicant has the option to suggest an inspector or senior examiner.

4.3.4 AoC for the revalidation and renewal of examiner certificates

All assessments of competence for the revalidation or renewal of examiner certificates is to be conducted by a Swedish inspector or senior examiner, unless specifically approved by the Swedish Transport Agency.

4.4 Test, Check or AoC forms

The forms can be obtained from <http://www.transportstyrelsen.se/en/Forms/>

Please send all test/check forms and applications to certifikat.w3d3@transportstyrelsen.se as a scanned pdf, **no other format is accepted**.

After completion of a skill test, proficiency check or assessment of competence, the examiner

1.Liability
 General statement Section 2.2 **does not** apply. The existence of liability of an examiner has to be evaluated case by case, therefore a generally applicable statement cannot be made.

2.Accident insurance
 General statement Section 2.2 **does not** apply. An accident or incident can be the cause for a liability issue. For the liability of an examiner see above.

3.Data protection
 General statement Section 2.3 **does not** apply. The EU Directive 95/46/46 is not applicable in Switzerland. But the Swiss regulation [Bundesgesetz über den Datenschutz \(DSG\)](#) protects mainly the same range of personal data.

4.National administrative procedures

4.1 Skill test, proficiency check and assessment of competence procedures
 Examiners shall comply with the content of the FOCA examiner guide and all relevant FOCA documents, as applicable.
 All examinations (skill tests, proficiency checks or assessments of competence) shall be notified at least 48 hours in advance on www.flexco.bazl.admin.ch. For CR/TR skill tests or proficiency checks, a change of examiner before the event is permitted, provided that the 48 hours period was initially complied with. In this case the test/check shall be notified on flexco by the new examiner additionally. **FOCA will not respond to your Flexco entry, since this is just our oversight tool. If you are eligible to take the test/check remains in your responsibility.**
MPA and **HPA-Complex SPA** skill tests/proficiency checks on aeroplane require prior FOCA permission. Additional requirements for MPA and SPA (MP-OPS) skill tests/proficiency checks are specified in [FOCA GM/INFO - Conduct of PC/LPC OPC and LC in Multi Pilot Operation](#).
 IR proficiency checks on **SPA**; examiners without IRE privileges shall hold a letter from their competent authority, stating that they comply with the requirements in FCL.1010.IRE(a). This is not applicable to IR proficiency checks on HP-complex SPA.
 The table below illustrates the applicable procedures.

<p><u>4.3 Designation procedures</u> In accordance with the requirements in ARA.FCL.205(c), before any licence or IR skill test, is conducted, the ATO (alternatively the operator or applicant for ATPL or CB-IR conversion skill test) shall send the information listed in general section 2.4.1 2 weeks in advance to FOCA (refer to 4.8), together with a choice of suitably qualified examiners; note that FOCA is not bound to designate one of the proposed examiners. The formal designation does not relieve the examiner from the notification required under 4.1. Assessment of competence for the initial issue of a FI, CRI, IRI or TRI (Helicopter only) or an extension of a FI certificate to the privileges to instruct for IR, may only be conducted by FOCA inspectors or FOCA contracted examiners.</p>				
<p><u>4.4 Skill test, proficiency check or assessment of competence forms</u> The forms can be obtained here. The checklists can be obtained here. Swiss forms are preferred; foreign forms are only accepted if written and filled in English. All forms shall be completed in English language. After completion of a skill test, proficiency check or assessment of competence, the examiner report shall include the information listed in general section 2.4.2. The original forms and supporting documents shall be sent by postmail to FOCA. For Swiss operators under the company examiner system in acc. with WI O-003: All documents shall be sent via the operator's company chief examiner for compliance verification.</p>
