# Pipistrel Panthera 540

For Sale in Slovenia

**Registration** S5-MTS

**Year of construction** 2019

**Country** Slovenia

**City/Aerodrome** Portoroz LJPZ

**Description** Unique 4-seater with attractive design and efficient performance!  
The sky has opened-up like never before and borders are falling every day. The need of traveling long distance, quickly and efficiently has never been greater. Imagine an airplane, that can fully take advantage of small, short-runway airfields that bring you closer than ever to your destination or fly around the world and open a whole new world of opportunities. Panthera is an airplane that is carefully designed to keep you safe, comfortable, being at the same time quiet and friendly to the environment. It is an innovative airplane, which instantly catches attention. Panthera has been designed from the very beginning to be available with either electric motor, hybrid propulsion or petrol engine – in this case Pipistrel decided for Mogas fuel due to lower price and better availability in several parts of the world comparing to Avgas.

It is important to highlight Panthera key outstanding characteristics
